Key Definitions and Measures

Category 7.0 Develop and Manage Human Resources

APQC's Process Classification Framework (PCF)® is a reliable and robust framework used by hundreds of leading companies worldwide. The PCF is made up of 13 categories, as seen in Figure 1. This article highlights the definitions for each element for category **7.0 Develop and Manage Human Resources**, specifically. If you're looking to learn more about the PCF, or download the PCF itself, please visit www.apqc.org/process-frameworks.

Structure of the Article

Throughout this article, you will see multiple tables, with different colored headers. They relate to the levels of the PCF (Figure 2).

PCF Levels

LEVEL 1 CATEGORY	11.0 Manage Enterprise Risk, Compliance, Remediation and Resiliency (16437) Represents the highest level of process in the enterprise in general groupings such as manage customer service, supply chain, finance, and human capital.
LEVEL 2 PROCESS GROUP	11.1 Manage Enterprise Risk (17060) Groups of processes that are part of executing a category. Examples include perform after sales repairs, procurement, accounts payable, recruit/source, and develop sales strategy.
LEVEL 3 PROCESS	11.1.3 Manage Business Unit and Function Risk (17462) A single process that may include elements related to variants and rework in addition to the core elements needed to accomplish the process. Examples include invoice customer and develop and manage IT security, privacy, and data protection.
LEVEL 4 ACTIVITY	11.1.3.3 Develop Mitigation Plans for Risks (16458) A key step performed to execute a process. Examples include maintain chart of accounts and develop salary/compensation structure and plan.
LEVEL 5 TASK	11.1.3.3.1 Assess Adequacy of Insurance Coverage (18129) An element of work that goes into executing an activity. They are generally much more fine-grained and may vary widely across industries. Examples include create a business case and obtain funding, and design recognition and reward approaches.

Figure 2

Below is a definition of the different elements and numbers you will see throughout the article.

Element Name

This is the name of the element within the PCF. For example, “Manage supply chain for physical products,” as seen in Figure 3.

4.0 Manage supply chain for physical products (20022)
Performing supply chain activities include planning supply chain, procuring materials and services, and managing logistics.

Figure 3

Hierarchy ID

In the PCF, there are identifying numbers to the left of each process element. These numbers are called hierarchy ID numbers and are used by people to help quickly locate a specific process element. Figure 4 has an example of “4.0.”

4.0	Manage supply chain for physical products (20022)
Performing supply chain activities include planning supply chain, procuring materials and services, and managing logistics.	

Figure 4

Element ID

The numbers to the right of the process elements (20022 in Figure 5) are called process element identification numbers. Each process element in the PCF has a unique five-digit reference number.

4.0	Manage supply chain for physical products	(20022)
Performing supply chain activities include planning supply chain, procuring materials and services, and managing logistics.		

Figure 5

Element Definition

Each element in the cross-industry PCF has a definition associated with it. The definition is designed to provide detail and information around what type of work the element consists of.

In Figure 6, and for all elements in this article, you’ll find the definition directly under the colored heading that contains the name of the process element.

4.0	Manage supply chain for physical products	(20022)
Performing supply chain activities include planning supply chain, procuring materials and services, and managing logistics.

Outside of the Key Definitions articles (like this one), element definitions can be found in the [Excel version](#) of the PCF, which includes a tab that has definitions for each element.

Key Performance Indicators (KPIs)

A KPI is a specific measure used to gauge a quantifiable component of an organization’s performance at the functional, process, or activity level.

KPIs typically correspond to the organization’s critical success factors and business goals.

Throughout this article, KPIs (when available) will show up in a table underneath the element definition (Figure 7). The KPIs will be listed in the right column and the metric IDs will be listed in the left column.

4.1 Plan for and align supply chain resources (10215)	
Creating strategies for production and materials. Handle the demand for the products of the organization. Develop plans for handling materials. Develop and administer the schedule for master production. Plan for distribution requirements and its constraints by reviewing and assessing distribution policies and performance and by establishing quality standards and procedures.	
Suggested KPIs for Process Group 4.1 Plan for and align supply chain resources (10215)	
Metric ID	KPI
100395	Cash-to-cash cycle time in days
100654	Demand/supply planning costs per \$1,000 revenue

Figure 7

Metric ID

Where KPIs are available, there is a metric ID included for KPIs that can be found in [APQC's Benchmarks on Demand portal](#). The metric ID can be utilized by organizations to search for data related to that metric, such as top, bottom, and median performers.

Throughout this article, KPIs (when available) will show up as a table underneath the element definition (Figure 8). The KPIs will be listed in the right column and the metric IDs will be listed in the left column.

Evaluating the current and future skill requirements of the organization with regard to the overall corporate strategy of the organization and market conditions. Identify and establish the minimum skills needed for the requisite HR needs.

7.1.2.1.1 Develop and manage strategic workforce planning framework (21640)

Defining and maintaining the structure, principles, and approaches used to assess workforce supply and demand, capabilities, and gaps over the strategic planning horizon.

7.1.2.1.2 Perform business unit workforce planning (10424)

Determining the requirements for employees and the need for employee resourcing for each unit/function. Lay out a plan detailing employee resourcing requirements of individual functions and the organization as a whole.

7.1.2.1.3 Advise business in implementing strategic workforce planning (21641)

Providing guidance and expertise to business leaders on applying the strategic workforce planning framework to inform workforce decisions, plans, and initiatives.

7.1.2.1.4 Partner with the business to execute workforce plan (21642)

Collaborating with business leaders to translate workforce plans into actionable initiatives and to support execution of agreed workforce actions.

7.1.2.1.5 Monitor and adjust strategic workforce plan (21643)

Tracking workforce outcomes and changes in business needs to update workforce plans and address emerging gaps, risks, or opportunities.

7.1.2.2 Develop total compensation and rewards strategy (10425)

Designing a plan that specifies the combination of wages, salaries, and benefits the employees receive in exchange for work. Define the total amount of compensation, in addition to the manner in which the compensation is paid and the purposes for which employees can receive bonuses, salary increases, incentives and non-monetary rewards.

7.1.2.2.1 Establish wages, salaries, and benefits strategy (21644)

Defining the strategic approach for wages, salaries, and benefits to support workforce attraction, retention, performance, and alignment with organizational objectives and market conditions.

7.1.2.2.2 Establish incentive strategy (10210)

Creating a scheme of rewards and recognition for employees to promote a results-based culture. Create specific incentives to reach desired outcomes, such as landing key clients, growing the customer base, providing exceptional servicing, and increasing profit margins.

7.1.2.2.3 Establish a severance pay strategy (21645)

Defining the approach to severance pay, including principles and guidelines, to support workforce transitions while managing financial, legal, and reputational considerations.

7.1.2.3 Develop succession plan (10426)

Creating and implementing the plan for continuation of key positions within the organization. Identify internal people with the potential to fill key business leadership positions. Provide critical development experiences to employees who can move into important roles. Engage leaders to support the development of high-potential leaders.

7.1.2.4 Develop high performers/leadership programs (16938)

Creating a program that incorporates incentives and compensation put forth by the organization to recognize high performing workers and excellence in leadership.

7.1.2.5 Develop diversity, equity, and inclusion plan (10427)

Creating and implementing the plan for ensuring a diverse work force. Develop and hire employees with varying characteristics including, but not limited to, religious and political beliefs, gender, ethnicity, education, socioeconomic background, sexual orientation, and geographic location.

7.1.2.6 Implement diversity, equity, and inclusion plan (21433)

Execution of diversity, equity, and inclusion plans within an organization. Often called a DEI plan.

7.1.2.7 Design talent acquisition program (11623)

Developing a program to entice prospective resources to engage with the organization for a position of employment.

7.1.2.8 Design talent development program (11622)

Identifying skills, knowledge, and attributes that need enhancement in order to perform a job. Develop the appropriate training programs. These programs can be computer-based, classroom, or on-the-job training, etc.

7.1.2.9 Develop other HR programs (10428)

Creating HR programs and services such as employee engagements programs to promote positive employee behavior. Create a variety of programs and services to support employees' professional and personal needs at work and at home.

7.1.2.10 Develop HR policies (10429)

Creating rules and regulations that govern the HR function. Develop a policy plan that serves as a guideline for setting rules and regulations that help in achieving the HR goals and objectives.

7.1.2.11 Administer HR policies (10430)

Ensuring rules and regulations are followed and are flexible enough to accommodate indispensable deviations.

7.1.2.12 Plan employee benefits (10431)

Planning benefits in kind (also called fringe benefits, perquisites, or perks). Include various types of non-wage compensations provided to employees in addition to normal wages or salaries.

7.1.2.13 Develop workforce strategy models (10433)

Creating and implementing models for effectively strategizing the work force of the organization. Develop a model that specifies the organization's overall approach for maximizing the performance of its work force by defining the goals, objectives, and expectations of the work force. Manage all aspects of performance required for the work force to function, including recruitment, selection, retention, and professional development.

7.1.2.14 Implement workforce strategy models (20122)

Implementing models for effectively strategizing the work force of the organization. Carry out all aspects of performance required for the work force to function, including recruitment, selection, retention, and professional development.

7.1.2.15 Manage job families (21432)

Overseeing a group of similar individual or teams with similar education, skills, training, or experience.

7.1.2.16 Develop and maintain job descriptions (10447)

Creating descriptions for job requisitions. Define the normal components of a job description, such as the overall position description with general areas of responsibility listed, essential functions of the job described with a couple of examples of each, required knowledge, skills, abilities, required education and experience, a description of the physical demands, and a description of the work environment.

7.1.3 Monitor and update HR strategies, plans, and policies (10417)

Supervising the HR and workforce strategy, plans, and policies in order to refurbish them whenever needed. Determine the performance of HR and workforce plans and policies by measuring the objective achievement rate and its contribution to the overall business strategy. Ensure that information about these plans and strategies is effectively communicated to various stakeholders. Incorporate any suggestions by these stakeholders when revising HR and workforce plans and policies.

7.1.3.1 Measure realization of HR objectives (10434)

Determining the accomplishment of HR and workforce goals and objectives. Evaluate the effectiveness of the HR function by estimating the present rate of achievement of the established objectives. Use metrics to determine if the objectives are being realized. Leverage measures such as turnover, training, return on human capital, costs of labor, and expenses per employee.

7.1.3.2 Measure contribution of HR to business strategy (10435)

Determining the role of the HR function in implementing the organizational strategy. Measure the correlation between the HR and workforce performance and the overall business strategy. Calculate the amount of contribution of the HR function to the overall business growth.

7.1.3.3 Communicate HR plans and provide updates to stakeholders (10436)

Conveying the plans for HR function to stakeholders. Ensure that the HR plans and strategy are effectively communicated to the people who can affect or be affected by the organization's actions, objectives, and policies such as the creditors, shareholders, employees, and suppliers. Provide regular updates to these stakeholders to ensure effective communication.

7.1.3.4 Review and revise HR plans (10438)

Reassessing the strategies, plans, and policies of the HR function, with the objective of revising them. Revisit the schematic plans for the HR function. Taking stock of any suggestions or feedback from the stakeholders, revamp the blueprint of HR strategies and plans.

7.1.4 Develop competency management models (17046)

Creating and implementing the tools for managing the competency levels of HR. Design a model for integrating HR planning with business planning. Assess current HR capacity based on the competencies against the capacity needed to achieve the vision, mission, and business goals of the organization. Consider factors such as employee development, career path, compensation policies, and performance management.

7.2 Recruit, source, and select employees (10410)

Determining and handling employee requirements. Recruit or source the candidates as per the requirements. Screen and select the most appropriate candidates. Take care of the newly hired and re-hired employees. Maintain records of information for all applicants.

Suggested KPIs

Metric ID	KPI
100565	Cycle time in days from approval of the job requisition to acceptance of job offer
100569	Cycle time in days from identifying the need to hire a new employee to approval of the job requisition
100571	Cycle time in days from job offer acceptance until new hire begins in the agreed position
104563	Number of business entity employees per FTE that performs the process group "recruit, source, and select employees"
101123	Number of FTEs that perform the process group "recruit, source, and select employees" per \$1 billion revenue
103877	Total cost to perform the process group "recruit, source, and select employees" per \$1,000 revenue
103956	Total cost to perform the process group "recruit, source, and select employees" per business entity employee
103958	Total cost to perform the process group "recruit, source, and select employees" per new hire

7.2.1 Manage employee requisitions (10439)

Handling the requirements for new employees. Create and open job requisitions by clearly defining the job descriptions. Post these requirements internally and externally, and modify them as appropriate. Manage the dates of the whole requisition process.

7.2.1.1 Align staffing plan to work force plan and business unit strategies/resource needs (10445)

Creating a correspondence between the plan for hiring new employees and the desired employee requirements. Staff an adequate amount of people with the appropriate skills to effectively accomplish its legislative, regulatory, service, and production requirements.

7.2.1.2 Open job requisitions (10446)

Developing specific job requisitions, and ensuring their accessibility. Create and open a job requisition to fill the vacant positions within the organization. Clearly describe the job title, department, fill date, and the requisite skills and qualifications for the job.

7.2.1.3 Approve job requisition (21697)

Reviewing and authorizing requests to fill positions to ensure alignment with workforce plans, budget constraints, and organizational approval requirements

7.2.1.4 Post job requisitions (10448)

Posting and advertising job descriptions. Display open job descriptions internally and externally. Use public portals, online portals, and websites to upload these requisitions in order for applications to be received.

7.2.1.5 Modify job requisitions (10450)

Making the necessary alterations to job requisitions. Revamp or revise the job requisitions in case a position is filled or is not vacant anymore, as well as in case of any new openings. (It involves Manage the internal/external job posting websites [10449] to make the necessary changes.)

7.2.1.6 Notify hiring manager (10451)

Informing and communicating with the hiring manager. Notify the manager responsible for the hiring process in cases of any new position openings or changes.

7.2.1.7 Manage requisition dates (10452)

Determining and managing the dates for the employee requisition process.

7.2.2 Recruit/Source candidates (10440)

Recruiting new candidates for deployment across various functional areas inside the organization. Select methods for sourcing new employees. Manage relationships with third-party agencies. Stage recruitment fairs and drives. Manage employee referral programs.

7.2.2.1 Determine recruitment methods and channels (10453)

Defining the methods and channels for recruitments in order to maximize the amount of candidate availability. Use channels such as headhunting, job postings, job portals, networking websites, and media advertising. Choose from the various methods of recruitment such as internal/external third-party sourcing.

7.2.2.2 Perform recruiting activities/events (10454)

Organizing and executing recruiting activities and events. Activities and events include on-campus hiring, refresher courses, information sessions, career fairs, etc. to increase the coverage of the sourcing in order to ensure that the most deserving and appropriate candidates are hired.

7.2.2.3 Develop and maintain candidate pool (21699)

Cultivating relationships with potential job candidates even when there are no immediate openings. Building the talent pipeline for potential future hiring needs.

7.2.2.4 Manage recruitment vendors (10455)

Establishing and maintaining relationships with recruitment vendors (suppliers). Create and maintain relationships with third-party agencies such as staffing and firms to expand. Use these relationships to implement the sourcing process effectively.

7.2.2.5 Manage employee referral programs (17047)

Creating and managing a recruiting strategy where current employees are rewarded for referring qualified candidates for employment.

7.2.2.6 Manage recruitment channels (17048)

Establishing and maintaining internal and external channels for recruiting. Extract the best out of every recruitment channel. Manage all the processes related to all the sourcing channels including maintaining career pages on the organization website.

7.2.3 Screen and select candidates (20123)

Evaluating and selecting potential employees through interviews, tests, etc.

7.2.3.1 Identify and deploy candidate selection tools (10456)

Identifying and implementing tools for the selection of candidates. Recognize candidate selection tools such as screening, telephone interviews, hiring manager interviews, drug testing, and skills assessment. Effectively deploy these tools to check if the candidates fit in the workplace or not, as well as to ensure workplace safety.

7.2.3.2 Interview candidates (10457)

Assessing the candidates by their performance in the interviews. Conduct HR interview, technical interview, hiring manager interview, etc. Understand the mindset of the candidate, and comprehend his/her personal and professional lives.

7.2.3.3 Test candidates (10458)

Examining the candidates through tests. Prepare tools such as aptitude, technical, and grammar tests. Test the skills of the candidate through a written, oral, or computerized test.

7.2.3.4 Select and reject candidates (10459)

Approving the deserving candidates, and rejecting the others. Examining the performance of candidates. Ensure candidates would fit well with the organization. (Assess performance from Interview candidates [10457] and Test candidates [10458].)

7.2.4 Manage new hire/re-hire (10443)

Creating and making job offers to the selected candidates. Fairly negotiate the job offers. Agree on terms with the candidate to complete the hiring process.

7.2.4.1 Draw up and make offer (10463)

Compiling job-related information for the selected candidates in order to make up a job. Include information about the job description, reporting relationship, salary, bonus potential, benefits, and vacation allotment.

7.2.4.2 Negotiate offer (10464)

Negotiating an offer with selected candidates. Discuss the job offer with the candidate to ensure a mutual understanding.

7.2.4.3 Hire candidate (10465)

Wrapping up the process for hiring candidates. Agree to all hiring terms and conditions. Have the candidate accept and sign the job offer.

7.2.5 Manage applicant information (10444)

Creating and maintaining a system for managing the information of applicants. Create records for all candidates who apply. Maintain and track information through the use of applicant-tracking systems.

7.2.5.1 Obtain candidate background information (10460)

Conducting a background investigation on the candidates with the objective of gathering and compiling criminal, commercial, medical, and financial information.

7.2.5.2 Create applicant record (10466)

Creating and documenting the records of all applicants. Manage all individual applicants, including hires and non-hires. Maintain records to avoid any duplication and promote efficiency.

7.2.5.3 Manage/track applicant data (10467)

Keeping track of all the information about the candidates who apply for jobs. Use applicant-tracking systems that can be accessed online as a central location and database for recruitment efforts.

7.2.5.3.1 Complete position classification and level of experience (20124)

Identifying the requirements for the position to be filled. Determine the experience and skills necessary to perform the tasks outlined.

7.2.5.4 Archive and retain records of non-hires (10468)

Retaining and storing the records of the candidates who were rejected and not hired to ensure future availability in case the need arises. Create a centralized repository of profiles. Label these records in order to readily identify them. Add remarks for any future consideration.

7.3 Manage employee onboarding, training, and development (20599)

Assisting employees in developing their capabilities, and providing them counseling services. Handle the orientation and deployment of the employees. Administer the performance of employees. Administer the development and enhancement of the employees. Provide training and development programs for employees.

Suggested KPIs

Metric ID	KPI
100823	Learning budget per business entity employee
102302	Percentage of middle management/specialists that receive a formal performance review
102331	Percentage of operational workers/office staff that receive a formal performance review
102619	Percentage of senior management/executives that receive a formal performance review

102304	Percentage of middle management/specialists who attended management development programs
102621	Percentage of senior management/executives who attend management development programs
103623	Total cost to perform the process group "develop and counsel employees" per \$1,000 revenue

7.3.1 Manage employee onboarding (10469)

Creating and maintaining various employee on-boarding programs typically known as induction programs in order to ensure that the new employees are effectively introduced to the organization and its existing employees. Examine and evaluate the performance of these induction programs. Execute these programs on the ground level.

7.3.1.1 Develop employee onboarding program (10474)

About APQC's Process Classification Framework (PCF)[®]

The Framework for Process Improvement

Experience shows that the potential of benchmarking to drive dramatic improvement lies squarely in making out-of-the-box comparisons and searching for insights not typically found within intra-industry paradigms. To enable this beneficial benchmarking, the PCF serves as a high-level, industry-neutral enterprise process model that allows organizations to see their business processes from a cross-industry viewpoint.

The PCF enables organizations to understand their inner workings from a horizontal process perspective, rather than a vertical functional viewpoint. The PCF does not list all processes within a specific organization, and every process listed in the framework is not present in every organization.

Originally created in 1992 by APQC and a group of members, the framework has experienced more than twenty years of creative use by thousands of organizations worldwide. The PCF is supported by APQC's Open Standards Benchmarking research. It is continuously enhanced as APQC's Open Standards Benchmarking team further develops definitions, processes, and measures. Please visit APQC's web site periodically for updates. The PCF is available for organizations of all industries and sizes at no charge by visiting <http://www.apqc.org/pcf>.
